## Work Experience

### Data science Intern, SHAI for AI

Feb 2023 - Present
- Learning about data science, data analysis, machine learning, powerbi and deep learning.

### Data Analysis Intern, Mentorness

Mar 2024 - Present
- Do some analysis tasks using different DBMS and Visualization tools and programming languages like python and SQL.

### Machine Learning Intern, Mentorness

Mar 2024 - Present
- Do some machine learning and data analysis tasks using python.

## Educational Background

### Bachelor Degree of Data Science

Al-Balqa' Applied University
- 2021-present

## Projects
- predicting diamond prices
- Music Genre Classification
- Customer-Churn-Prediction
- Hotel-Reservation-Analysis-with-SQL
- airbnb_project
- End-to-End-data-science-project
- Analysis-of-Indian-agriculture

## Side Projects
- RAG-Chatbot
- RAG-Palestine-ChatBot
- CNN-Covid19-Classification
- Data Science website using Wordpress

## Fields of Knowledge
- Langchain
- Deep learning
- Wordpress

## Skills

### Technical Skills
- Python (Programming Language)
- Data Cleaning
- Data Analysis
- Machine Learning
- supervised machine learning
- Data Visualization
- Data Mining
- Database
- Pandas
- Numpy
- Matplot
- Seaborn
- SQL
- Statistics
- Soft skills
- Communication

### Tools/Sofware
- Tableau
- Microsoft Power BI
- Oracle SQL
- PostgreSQL
- KNIME

### Certification/Short Courses
- Data Science 101
- Python-Introduction to Data Science and Machine learning A-Z
- Google Data Analytics Professional Certificate (Coursera)
- Machine Learning Specialization (Coursera)
